## W. C. T. U.

### Minutes of the State Convention Held at Carson Recently.

Editor Gazette:—The Convention met on April 4th in the Methodist Church. Mr. Van Deventer opened the meeting with a few remarks on the 15th chapter of St. John, which he read and followed with a prayer. Miss Pugh then made a few remarks on the chapter just read, and suggested that officers for the day be chosen. Mrs. Henry Martin was called to the Chair, and Mrs. F. J. Crawford was chosen as Secretary. Reports from the local unions came next. Mrs. Cook, President of the Reno W. C. T. U., gave a short history of that union. It was organized in 1881 as a temperance union, then united with the Reform Club. Afterwards it was changed to a W. C. T. U. It is now composed of 30 members. They have circulated temperance literature in the town and at the State Fairs, where they have had a temperance booth; have a large Band of Hope; have had a large number of public lectures; have given entertainments, and have furnished a supper for the Knights of Pythias. They have some furniture for a hall, including a handsome banner, and have \$500 on interest. Miss Pugh knows of no other union which has money in the bank.

The Carson Union has had meetings regularly; have introduced temperance teaching in the public school; have organized a company of temperance cadets; have commenced temperance exercises in the public school; have, jointly with the Reno Union, had an address, which was delivered in the Methodist Church in Carson on November 21st, 1886, published and distributed, and have had several public lectures on temperance.

A delegation from the Good Templars in Virginia City reported a prosperous lodge of 75 members. Mrs. Helm, Mrs. Van Deventer and Mrs. Cook were appointed as a Committee to Prepare Resolutions, and Mrs. McCabe, Mrs. Webster and Mrs. Crawford as a Committee on Constitution. Miss Clapp, as Corresponding Secretary, reported that she had answered all letters and attended to all the correspondence of the State. Mrs. Helm, as State Treasurer, reported \$38 65 in the treasury.

Miss Pugh then gave a short account of the work of the W. C. T. U. at the New Orleans Exposition. She said that no water was to be had on the grounds when the Exposition opened, and that this was a deliberate plan for the purpose of forcing the people to drink beer. One brewer paid \$35,000 for the privilege of selling beer. Every hindrance was thrown in the way of the W. C. T. U., there being a strong prejudice against it. The water from the Mississippi was so bad that it was necessary to buy a filter and ice to make it drinkable. The money sent from Nevada and other States enabled the W. C. T. U. to furnish water and to make their booth the most attractive place in the grounds, so that next Winter they were invited to come and do what they pleased. Since that time a temperance worker in the swampy lands of Ohio met a man who had been at the Exposition, who told her that he had been so glad to get water to drink that he would not give to the W. C. T. U. \$10. Miss Pugh also spoke of Miss Leavitt, who started from San Francisco for the Sandwich Islands in a ship whose sails were filled out with the prayers of Christian women; told of her wonderful journey, her successful labors in Australia and Japan, where the people had to be taught the first principles of temperance, and in Japan now a Japanese woman presides over a Japanese temperance meeting.

Adjourned to partake of a lunch provided by the ladies and served in the Methodist parsonage.

Met at 2 o'clock in the afternoon. Meeting opened with the reading of the 55th chapter of Isaiah, by Mrs. Cook; prayer, by Mrs. Van Deventer. Report of Committee on Resolutions:

WHEREAS, The Nevada W. C. T. U. in its Second Annual Convention, recognizes with gratitude the wonderful strides that the great cause of temperance has made in our land;

Resolved, That we return our sincerest thanks to Almighty God, and pledge ourselves anew to the cause, and that we will go on in our work until the saloon shall no more have a place in our country.

Resolved, That we will put forth most earnest effort to secure a complete organization of the State for continuous work, both by local and transient workers.

Resolved, That we invite the happy co-operation of all the churches and all temperance organizations, of the press and all who believe the saloon traffic in liquors to be injurious to the best wishes of the State.

Resolved, That we tender our sincere thanks to the members of the last Legislature for the law making drunkenness on the part of State officials a criminal offense.

Resolved, That we demand of the political parties that they take a firm and decided stand as the friends of home and the enemies of the saloon.

Resolved, That we pledge ourselves to do our utmost to secure the election to office of men whose principles are in harmony with our motto, For God and Home and Native Land.

Report adopted.

Report of Committee on Constitution read and adopted.

Then came the election of officers. Mrs. Leonard spoke in nomination of State President. She said: "This is decidedly a Christian Temperance Union, guided by faith and prayer. The women taking guidance of the State Union should be women of that character. Therefore, I take great pleasure in placing in nomination Mrs. Van Deventer. It was then

moved that the nominations close. Mrs. Van Deventer was unanimously elected. That lady then spoke, saying that she appreciated the honor, but felt that the needs of the office required one who could consecrate her whole time to its duties, which would be impossible for her to do, still, she would accept and do the best she could. Mrs. Boyd and Mrs. Thine were elected Vice Presidents; Miss Eva Barnes, Recording Secretary; Mrs. A. Helm, Corresponding Secretary; Mrs. F. J. Crawford, Treasurer.

Moved and carried that the next State Convention meet in Reno.

In the evening a public meeting was held in the Presbyterian Church. It opened with music by the quartette, consisting of Mrs. Bender, Mrs. Howe, Mr. Howe and Judge Leonard, accompanied on the organ by Miss Annie Martin. Selections from the Bible appropriate to the occasion were read by Mr. Woods. Prayer by Mr. Van Deventer. Music by the quartette. Short address of welcome by Mrs. Crawford.

A talk by Miss Pugh on the East, to the nation, of the liquor traffic, and the necessity of prohibition. Solo by Mrs. Howe, "Where is my Wandering Boy To-night?"

Hymn sung by the congregation, and benediction by Mr. Woods.

Convention called to order by the State President. Minutes of Convention read and adopted. The following resolution was adopted:

Resolved, That the members of this meeting desire to return their sincere thanks to Miss Pugh for her very helpful and interesting labors among us.

It was then ordered that the minutes be published in the Carson and Reno papers, and a copy be sent to the Carson and one to the Union Signal for publication.

Closed with prayer by Miss Pugh. Adjourned sine die.

## A Man Who Saw Washington.

It does not seem possible that there should be a man yet living who would even profess to remember having seen Washington's face. But there is, and what is still more curious, he professes to have seen it only about fifty years ago. It is W. H. Burgess, of Alexandria, Va. He says that he was employed in 1836 as laborer to assist in building the tomb at Mount Vernon and removing the bodies of George and Martha Washington from the old to the new tomb. "I was but a lad," he said, "and I remember this was about my first piece of work. When the vault was completed I assisted in removing the bodies from the old tomb to their present resting place. It was decided to open Washington's coffin, and when it had been conveyed to the new tomb the lid was raised. A number of people were present and stood in breathless silence while the workmen extracted the rusty screws. When the top of the coffin had been lifted I looked in. The body was apparently perfectly preserved. The features of the face were complete and there was nothing to indicate the length of time he had been dead. The exposure to the air, however, had its immediate effect. In a minute or two the body suddenly collapsed and shrunk into almost unrecognizable form. Other than this my recollections are very indistinct. I do not remember how the body was dressed or anything further about it. The features, as I remember them, were like the pictures I have seen Mr. Burgess now is a white-haired old man, seventy years of age.

## The Poor Little Ones.

We often see children with red eruptions on face and hand, rough, scaly skin, and often sore on the head. These things indicate a purged condition of the blood. In the growing period, children have need of pure blood by which to build up strong and healthy bodies. If Dr. Pierce's "Golden Medical Discovery" is given, the blood is purged of its bad elements, and the child's development will be healthy, and as it should be. Scrofulous affections, rickets, fever-sores, hip-joint disease or other grave maladies and suffering are sure to result from neglect and lack of proper attention to such cases.

**A Lovely Complexion.**

What a lovely complexion, we often hear persons say. "I wonder what she does for it?" The secret is the purity and real loveliness of the complexion depends upon the blood. Those who have sallow, blotchy faces may make their skin smooth and healthy by the use of Dr. Pierce's "Golden Medical Discovery" to drive out the humors lurking in the system.

Mild, soothing and healing is Dr. Sage's Catarrh Remedy.

MONDAY.....APRIL 18, 1887

It is safe to say that there will be no strikes this year in the vast establishment of John Wanamaker at Philadelphia, inasmuch as he has agreed to make his employees sharers in the profits of the business. It is estimated that the profit to be distributed, in addition to salaries, this year, will be not less than \$100,000. This is certainly the proper course to pursue in order to adjust the relations of labor and capital, but the idea is decidedly modern, and will, therefore, require time to allow of even the anticipation that it will be anything like generally adopted.

Mr. Wanamaker's business career has already been a phenomenal one. He has built up an enormous establishment from a very modest beginning; and it is worthy of notice that all the progress he has made, and all the wealth he has gained, have been due to his enterprise and skill in so conducting his business as to give his customers the best return for their money. No exclusive privileges contributed to the aggrandizement of Mr. Wanamaker's immense trade. No aid from corporate combinations nor legislative corruption was summoned to give him a monopoly by which he could levy enhanced prices from the public. All he has done and all he has made have been the direct result of energy, judgment and enterprise under free competition.

When a man who has made an immense fortune by such means adopts the idea of profit-sharing, it may be taken as a proof that he regards it as good business policy. If the share of the returns which he is to give to his clerks were to be a loss, the active competition to which every branch of his business is subject, would veto its adoption. But he adopts the plan because he knows that it will be an aid to him in that competition. The additional interest and desire for the prosperity of that immense establishment, which will thus be inspired in every employee, are relied upon to enhance its success and give it an additional advantage in competition with its numerous rivals.

Comstock newspapers continue to talk of the Virginia and Gold Hill Water Company going to build quartz mills in Virginia City, notwithstanding the oft-repeated and well authenticated statement that the projected mill or mills will be constructed and managed by a new corporation known as the Nevada Mill and Mining Company, the water company merely to supply the power for the same at the lowest possible price.

O'Connell, the juror in the Haddock murder case at Sioux City, Iowa, who stood out for a conviction against the other eleven, subsequently admitted to the Judge who tried the case that he had been asked to name his price for a verdict of acquittal, thereby bearing the impression that the others had been unduly influenced to find a verdict for the defense.

Indians cannot become citizens while they preserve their tribal relations. California has no law that will prevent an Indian from becoming a citizen. An Indian who resides on an Indian Reservation, except as a Government officer, is presumed to maintain his tribal relations.

Railroad men all over the country are busy interpreting the Interstate Commerce law. They should give the Commissioners and lawyers a show.

Even the imagination of the land agent in the southern part of California has been discounted by the boom in prices of real estate there.

### A WRECKED STEAMSHIP.

### A Proposed Labor Demonstration in St. Louis.

### SNOWSTORM IN THE EAST.

### Settlers to be Evicted by United States Soldiers.

### SERIOUS TROUBLE FEARED.

MILWAUKEE, Wis., April 18. A special to the *Evening Wisconsin* says Company E, Eleventh Infantry, stationed at Fort Sully, received orders to proceed at once to the Winnebago and Crow reservations and drive the settlers from those lands. The company, under command of Captain Myers, left yesterday evening and camped at Canning last night. His orders are reported to be strict, calling for the destruction of property if necessary. The greatest excitement exists, and it would not be surprising to see a miniature Riel rebellion inaugurated on these lands. This territory was thrown open by Arthur's administration in February, 1884, and thousands of honest settlers from all parts of the United States rushed in and took possession of claims. Cleveland's revocation of Arthur's proclamation has brought on the present crisis.

### No Foreign Flings.

ST. LOUIS, April 18. A convention composed of delegates from all the trades unions in this city, including the K. of L., was held at Central Turner Hall yesterday afternoon. The business consisted chiefly in completing arrangements for a grand parade of workmen, to take place on May 1st, in commemoration of the establishment of eight hours as a day's labor. It is intended to make the parade the grandest thing of the kind that has ever taken place here. A resolution was adopted that none but the American flag should have a place in the procession.

### Failed to Agree.

SIoux CITY, Ia., April 18. The jury in the case of John Amsdorf, charged with the murder of Rev. Geo. C. Haddock, disagreed, and were finally discharged by the Court yesterday. The jury stood eleven for acquittal and one for conviction. Dennis O'Connell was the juror who stood out for conviction, and when the jury was before the Court he said that his judgment was final. The Court thereupon discharged the jury.

### Mining Law-Suits.

CHICAGO, April 18. A suit has been commenced in the Circuit Court by Lewis J. Hanchett against David H. Jackson and Eliza Gray for an accounting by Jackson, and to enjoin Gray from paying notes executed in favor of Jackson. Hanchett has also brought a suit against Jackson for \$50,000 damages. The suits have grown out of mine troubles in Nye county, Nevada.

### The Arrangements Perfected.

LONDON, April 18. An agreement has been signed for the formation of a joint stock company for the manufacture of Irish hosiery and other textiles. The headquarters of the company will be at Dublin. Messrs. White and Tyson, merchants, will shortly go to America to establish connections with the new company.

### Stove Moulders Striking.

CINCINNATI, April 18. About 900 stove moulders were ordered out to-day because the patterns of Bridge, Beach and Co., of St. Louis, were offered.

### Snow and Sleet.

NEW YORK, April 18. At 7 o'clock this morning it began snowing hard, and at 9 about one and one-half inches of snow had fallen. It then turned into a sleet storm, and at 10 the snow is covered with a crust of ice. Reports from the interior of the State show that the storm is general.

### A Just Sentence.

ST. LOUIS, April 18. Patrick J. Egan, a deputy recorder of votes, convicted of committing election frauds by registering false names of voters last November, was sentenced in the United States Court to-day to serve two years in the penitentiary.

BERLIN, April 18. The trial of 24 socialists charged with being members of illegal secret societies has just been concluded at Posen. Nine were convicted and sentenced to various short terms of imprisonment.

### A Stormy Session Expected.

LONDON, April 18. A five-line whip published to-day, urges the Conservatives to attend the meeting of the Commons to-night so as to be on hand to vote for a second

reading of the Irish Crimes Act Amendment bill.

The members began to drop into the House at an unusually early hour to-day in order to secure seats, the belief being that another scene similar to that of Friday night will occur during the evening's session.

### The Panhandle Robbers.

PITTSBURG, April 18. The first of the railroad robbery cases called this morning was that of J. L. Armstrong, an ex-conductor. The prosecution produced a valise which Armstrong had left in a barber shop, and which was found to contain a quantity of stolen property. He was held to wait the action of the Grand Jury. A large number of prisoners waived an examination and were remanded.

### A Wrecked Steamship.

LONDON, April 18. Late dispatches confirm the report that a steamer has been wrecked off Bonifacio, Corsica. The name of the vessel is the *Launalia*. Of two hundred and fifty passengers which she carried, fifty have been saved. Help has been sent to the wreck, but the sea is rough and it will be difficult to get near her.

### Papal Liberality.

LONDON, April 18. A dispatch from Rome says the Pope has approved the course of Cardinal Gibbons, and has encouraged him in his action with reference to the Knights of Labor. Cardinal Gibbons has secured the adherence of Cardinal Manning, and will appeal to the other Bishops for support.

### WESTERN DISPATCHES

### Break in the Wheat Market.

SAN FRANCISCO, April 18. The effect of the break in wheat at Chicago was but slightly felt here. The news was received before the opening of the regular morning session of the Produce Exchange, and the dispatch quoting May wheat at 82½ was queried. Private dispatches, however, confirmed these quotations, and assigned as the cause the rains in the South and West. Although the break evoked considerable comment, no uneasiness was shown by the bulls. Wm. Dreabach, who was credited with being the leader in the bull movement was visited by an Associated Press representative, and stated that the Chicago market would not effect the local market, as the condition of things here were evidently not understood in the East. A slight decline might occur but to none of any great extent. He was asked regarding his alleged manipulation of the market for the bull interests, and laughingly replied, "What's the use my denying that a corner is being created here; I am tired of making these denials. Prices, as I have before stated, are based on facts relative to the crop." The morning session witnessed slight fluctuations from opening figures, but closed at the same prices on which it opened, for both options named.

### Sudden Deaths.

SAN FRANCISCO, April 18. James E. Patrick, a prominent and well-known merchant of this city, died suddenly this morning. He was for many years President of the Merchant's Exchange, and more recently its Secretary. He was a member of the old hardware firm of Richard Patrick & Co., which, however, dissolved and ceased to exist several years ago. Of late he had not been engaged in any active business. Charles Kohler, the senior member of the well-known wine firm of Kohler & Frohling, died suddenly last night from apoplexy. He was a native of Germany, 53 years of age, and had been here since 1850.

### TELEGRAPHIC BREVITIES.

—The dry region of Texas continues to be visited by copious showers of rain.

—The new Washington city Sunday law went into effect yesterday and was generally observed.

—To-day a storm in the East almost cut off all telegraphic communication between Chicago and New York.

—Three attempts have recently been made, (it is thought by anarchists) to burn the office of the *New York Zeitung*.

—Nearly every State in the Union will be represented, in the National drill soon to take place at Washington. About 100 companies, representing every arm of the service, will be present.

—A Long Island dispatch says that the Sheriff of Queens county yesterday placed deputies at all the parks in the county with instructions to forbid the playing of baseball or other games on Sunday. The Sheriff also announced that he will continue the same action during the entire season.

## LOCAL NEWS.

## Happenings of the Day in Reno and Vicinity.

**Quite a Tramp.**  
Jules Vincent, a barber in Belz's shop on Commercial Row, started out Saturday morning for quite a tramp, the principal object being to get physical exercise. His first objective point was Virginia City, where he expected to arrive Saturday evening. After remaining there for a day or two he intends leaving for Carson, and from there foot it to Glenbrook, on Lake Tahoe. He will then go by steamer to Tahoe City and remain for several days and return to Reno on foot about the 10th of May. The entire distance he expects to walk is about 100 miles.

## Youthful Dancers.

Mrs. Alt's Saturday afternoon dances for young folks attract quite a number of grown people, who take pleasure in watching the little ones trip the light fantastic. Some of them are very graceful, and are making rapid progress under the solicitous instructions of their teacher.

## Beef Cattle Coming.

Wallace Shoal, a prominent cattleman of Honey Lake, is on his way to Reno with about 300 head of beefs. T. J. Cummings, of Surprise Valley, is also coming in with 150 head. Both bands are expected to arrive here Wednesday morning.

## Knights' Attention.

## The Eureka Con.

From an Eureka man who passed through Reno on last evening's overland express train for San Francisco, a GAZETTE reporter learned that the Eureka Con. Company is at present running but one furnace, but will start another on Monday next. The refinery has been enlarged so that enough lead can be refined to run the two furnaces. Eight men were, last Thursday, put to work in the upper levels of the company's mine to extract low grade ore, which will be used for flux instead of barren lime. It is believed the company will pay a dividend of 50 cents a share on its capital stock within the next ten weeks.

## Why He Wanted to be an Editor.

The following is a school boy's composition, which gives his idea of some of the inducements for becoming an editor: "The editor is one of the most happiest individuals in the world. He can go to the circus in the afternoon and evening without paying a nickel; also to inequities and hangings. He has free tickets to theaters, gets wedding cake sent him, and sometimes gets a licking, but not often, for he can take things back in the next issue, which he generally does. While other folks have to go to bed early the editor can sit up late every night, and see all that is going on. When I am a man I mean to be an editor, so that I can stay out late at nights. Then that will be jolly."

## Recent gubernatorial appointments.

Governor Stevenson, on Friday last, made the following appointments: A. J. Little, a Notary Public for Lyon county, to reside at Mason Valley; Sol Hilp, Notary Public for White Pine county, to reside at Taylor; George H. Bird, of Tuscarora, County Commissioner of Elko county, vice Martin Smith, deceased.

The following prescription for dysentery, diarrhoea and all Summer complaints, is furnished by a prominent physician who used it in his practice for several years with uniform success. For adults, take one teaspoonful of Gilmore's Aromatic Wine and the same quantity of corn starch, after every discharge. For children, one teaspoonful of Gilmore's Aromatic Wine and the same quantity of corn starch. For infants under one year, ten drops of this Wine and enough corn starch to thicken it. This prescription is safe, sure and reliable. It does not leave the patient constipated, but restores to perfect health. Agent for Reno, W. Pinniger.

## Origin of a Famous Song.

Once over the bar at its entrance upon the Gulf, the Suwanee river holds its way with a deep current, in places forty feet, far up through the forests of the best hard pine in the State. It is the Penobscot of Florida. It has some good land upon it where plantations have heretofore been made, but after a while generally abandoned. The mosquitoes and malaria guard in the main entrance against other than lumbermen, anglers, and intrusive tourists. This dark river has, too, its romance, as being the place which gave rise to a melody, which, like "Home, Sweet Home," the affection of the heart will never let go. For it was here that a French family in the time of Louis XIV came over and settled upon the Suwanee and made a plantation. After a while the father and mother and all died save one daughter, who, disheartened and desolate, returned to France, and there wrote, adopting in part that negro dialect which she had been familiar with on the plantation in her girlhood, a feeling tribute to "the old folks at home" in their grave in the far-off country.

## Astounding Success.

It is the duty of every person who has used Boschee's German Syrup to let its wonderful qualities be known to their friends in curing consumption, severe coughs, croup, asthma, pneumonia, and in fact all throat and lung diseases. No person can use it without immediate relief. Three drops will relieve any case and we consider it the duty of all druggists to recommend it to the poor, dying consumptive, at least to try one bottle, as 80,000 dozen bottles were sold last year, and no one case where it failed was reported. Such a medicine as the German Syrup cannot be too widely known. Ask your druggist about it. Sample bottles to try, sold at 10 cents. Regular size, 75 cents. Sold by all druggists and dealers in the United States and Canada.

## Happiness and Health.

Are important problems, the former depending greatly on the latter. Everyone is familiar with the healthy properties of fruit, and no one can afford to be sick and miserable while the pleasant California concentrated liquid fruit remedy, Syrup of Figs, may be had of our enterprising druggist, Wm. Pinniger, Reno, Nev.

## Saved His Life.

D. I. Wilcoxson, of Horse Cave, Ky., says he was, for many years, badly afflicted with phthisis, also diabetes; the pains were almost unendurable and would sometimes almost throw him into convulsions. He tried Electric Bitters and got relief from the first bottle, and after taking six bottles, was entirely cured, and had gained in flesh 15 pounds. Says he positively believes he would have died had it not been for the relief afforded by Electric Bitters. Sold at 50 cents a bottle by S. J. Hodgkinson & Co.

## Merit Will Tell.

Was never better demonstrated than when "Fryer's Abietene Remedies" were awarded diplomas at the late California State Fair at Sacramento and at the Mechanics Institute at San Francisco. W. Pinniger is agent for these celebrated "Abietene Remedies" and he offers to return your money if they do not give satisfaction. In buying, be sure the fac-simile signature of D. F. Fryer is on each, as none are genuine without it.

## GAZETTE OFFICE

# THE WOODEN TOOTHPICK.

And Its Peculiar Relation to Lovely Women.

The most potential idol breaker I know is the toothpick, especially the wooden toothpick—2,500 for five cents is the drug store rate. Now, abstractly considered, the toothpick is not a bad idea. It enables a certain numerous class to cut a considerable figure in the shadow of first-grade hotels. It is also a familiar property of the after-breakfast horse-car farce that is daily played by those who publicly clean their finger-nails with their toothpicks and then clear away their teeth with them. The utilitarian may not always be politely bred, but he is a prodigious economist and should therefore command our respect. Dr. Samuel Johnson is remembered chiefly for his great intellect, though I suppose it is very well settled that his personal habits were perhaps as filthy as those of Socrates. In view of such history what may we not hope that time will bring to the man who gives his finger-nails precedence of his teeth in the office of the pick? Our education has so far advanced that we are not unforgivably offended by men's manipulations of that essential little instrument; but good God! what shall I say of the woman who goes abroad chewing a tooth pick of the 2,500-for-five-cents variety? She afflicts me far worse than the woman who h-h-o-i-k-k, and spits in public. You who have not seen her, give your imagination a poke and see what an image you can conjure up. I would much rather hear a woman swear than see her sucking a tooth-pick; and I am pained to observe that the latter habit grows on her. I am also curious to know, just as a freak of nature, the man who can look at a tooth-pick-sucking woman and ever again feel for her one tooth of that exalted sentiment with which the chivalrous man is proud to regard woman as an institution. Yesterday I was crossing a crowded promenade. Ahead of me was a dainty female figure attired in the jauntiest of costumes. Her skirts were coquettishly raised in very proper horror of the mud that covered the crossing, and her exquisitely shod feet danced along in the way which every man understands, but which no man ever adequately described. She was such a picture of feminine grace, elasticity and flowing curves as poets and susceptible Old 'Uns catch inspiration from. Filled with admiring thoughts of the general loveliness of woman—thoughts that were unquestionably inspired by the poetic creature ahead of me—I obeyed the impulse to snatch a glance at her face.

Oh, friends! She was chewing a wooden tooth-pick.—[Detroit Free Press.

## where the Piano Gets Its Work.

With the savagery of former ages has departed also their peculiar method of affecting the feelings of men. Formerly men were more body than mind, and the only way of reaching the latter was through vigorous applications of one kind or another to the former. Hence the rod in the school-room, the lash, the rack and the thumbscrew in the halls of justice. We have changed all that, and the refinement of the age enables a man to inflict more pain by means of a taunt than formerly would have been suffered by a blow. Modern nervous systems are also developed so that the torture of the mind means torture of the body, and right at this point the piano, if the expression is allowable, gets in its work.—[St. Louis Globe Democrat.

## The Michigan Girl as a Mosquito Killer.

"The Michigan girls are all right," said a young man in response to inquiry by one of his fellow-travelers; "they are all right. Have just spent two weeks up there at a semi-fashionable summer resort. Delightful evenings and nice girls. The only objection I have to them is that they are altogether too expert in killing mosquitoes."

"What objection can there be to that?"

"Well, you see, they are so all-fired quick about it that the mosquito can't get away at all. He is flattened out and smeared on right where he lights. When that happens to be a cheek or an upper lip it isn't so much pleasant for a fellow, you know."—[Chicago Herald.
